EDUCATION

MEng. Environmental Engineering

[2021 – 2023]

Poznan University of Life Sciences, Poznan, Poland

Thesis: Analysis of Changes in Minimum and Maximum Temperatures in Poland in the Context of Climate Change

MSc. Agricultural Economics

[2015 – 2018]

Ekiti State University, Ado – Ekiti, Nigeria

Thesis: Assessment of Savings and Investment Behavior of Women Cassava Processors in Ekiti State, Nigeria

B.Agric. (Hons.) Agricultural Economics and Extension Services

[2009 – 2014]

Ekiti State University, Ado-Ekiti, Nigeria

Thesis: Income and Factor Analysis of Small-Scale Palm Oil Processing in Ekiti State

RESEARCH INTERESTS

Sustainable Environment || Water Resource Management || Climate Modeling || Ecosystem Service || Environmental Impact Assessment ||

RESEARCH EXPERIENCE

Graduate Research Associate

Poznan University of Life Sciences

[2021 – 2023]

Focus: Climate Change Impact on Polish Lake Lands

Principal Investigator: Professor Mariusz Sojka

Brief Synopsis of Research: Our research examines Polish lake ecosystems and analyses long-term temperature trends and the influence of climate change, aiming to guide conservation and adaptation strategies.

Research Interests: *Water resources Management, Climate change, Ecosystem conservation.*

- I was involved in research conceptualization and methodology development.
- Reviewed extensive literature and prepared an original draft for publications
- I engaged in software implementation, validation, and formal analysis.
- I performed data curation, analysis, and visualization using R, ArcGIS, and Excel.
- I administered the research instrument following research ethics standards.

Graduate Research Assistant

Ekiti State University, Ado-Ekiti

[2017 – 2019]

Focus: Exploring Economic Empowerment and Sustainable Livelihoods in Agro-processing Industries

Principal Investigator: Professor Foluso Osundare

Brief Synopsis of Research: In exploring sustainable Agri-economics, our research assesses savings, investment behaviour and income factors among rural farmers to foster local livelihoods

Research Interests: *Sustainable Agriculture, Resource utilization, Food and Production economics*

- I conducted research and fieldwork experiments
- Reviewed extensive literature that addresses specific research objective
- I was involved in designing appropriate research methodologies
- Performed data analysis using Python, Statistical, and Microsoft Excel
- Assisted departmental Professor(s) with various research and administrative tasks

Trainee and Internships

Teaching and Research Farm, Ekiti State University

[Feb. 2012 - Feb. 2013]

- I was involved in understanding daily farm operations
- Participate in data collection, farm organisation and fact-finding
- Conducted Market survey, Market analysis and result presentation

TECHNICAL EXPERIENCE

- Analysis and interpretation of data obtained from primary and secondary sources
- Systemic literature review
- Experience designing research from the idea stage to the execution stage
- Collection, preparation, and organization of data
- Statistical Modelling, Data Analysis and Visualization
- Proficient in laboratory work for research and experimentation
- Conducting and analyzing qualitative data from focus group discussions and key informant interview
- Creating and administering questionnaires using traditional means and electronic means.
